# The “Old Way”

**PACIFIC NORTHWEST SNOWFIGHTERS**

In partnership with  
**CLEAR ROADS**

# TOO MUCH DATA!

**PACIFIC NORTHWEST SNOWFIGHTERS**

## LOOKING BACK

# REMEMBER WHEN – WE HAD LIMITED DATA!

**PACIFIC NORTHWEST SNOWFIGHTERS**

In partnership with

**CLEAR ROADS**

# SO WHAT DATA REALLY MATTERS?

## Let's take a look!

## “Data Gathering” Tools

- Traffic safety network
- Automated vehicle location (AVL)
- Infrared temperature sensors
- Route optimization/equipment
- RWIS – fixed and mobile
- Asset Management Software

**PACIFIC NORTHWEST SNOWFIGHTERS**

In partnership with  
**CLEAR ROADS**

# Sensors/Controllers

**PACIFIC NORTHWEST SNOWFIGHTERS**

In partnership with

**CLEAR ROADS**

## Data From Trucks

- Operator information
- Supervisory benefit
- Historical value
- Pavement condition variances
- Engine Diagnostics (newer models)

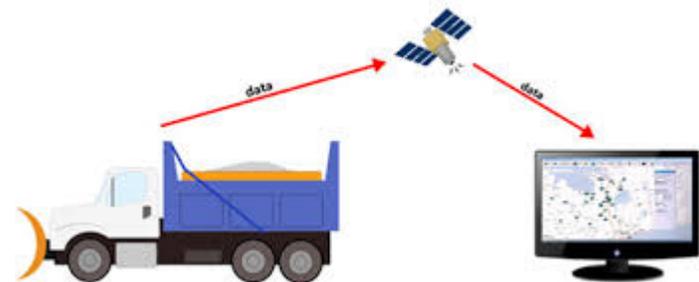

**PACIFIC NORTHWEST SNOWFIGHTERS**

In partnership with  
**CLEAR ROADS**

# Automated Vehicle Location (AVL)

- Connected to controllers/plows
- Transmit real-time data
- Customer support
- Material management tool
- Contractor management

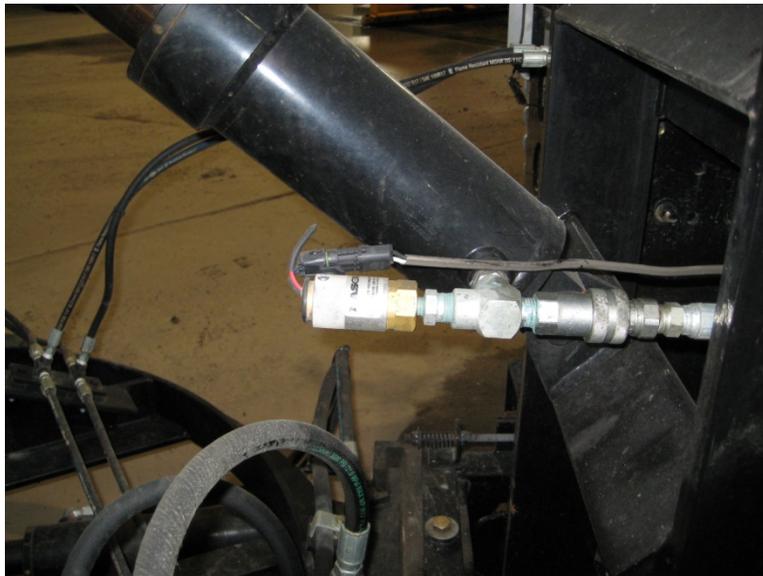

**PACIFIC NORTHWEST SNOWFIGHTERS**

In partnership with  
**CLEAR ROADS**

# AVL - Controllers & Sensors

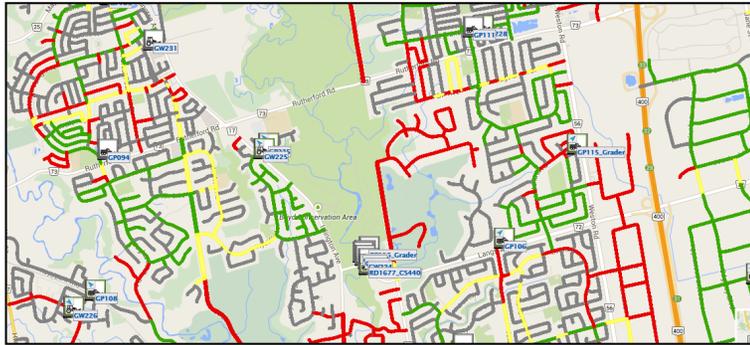

**PACIFIC NORTHWEST SNOWFIGHTERS**

In partnership with  
**CLEAR ROADS**

# Live Operations Data

**PACIFIC NORTHWEST SNOWFIGHTERS**

In partnership with

**CLEAR ROADS**

## **Reporting Capability**

- Material usage
- Vehicle status
- Customer service
- Winter operations
- GIS data points

# Material Management

## City of West Des Moines - Salt Usage Report for WestDemoines 315A FA

<b>Report</b>	<b>From</b>	<b>to</b>

A screenshot of a web-based GIS application titled "Iowa DOT Snowplows". The interface shows a map of Iowa with various road segments highlighted in green and yellow. A pop-up window titled "Camera from I-80" displays a live video feed of a road, with the text "DM - I-80 @ NE 80th in Altoona (38)" and a "Zoom to" button. The browser's address bar shows the URL "http://iowadot.maps.arcgis.com/apps/ondashboard/index.html?appid=3d05c4e0c316...". The top navigation bar includes "Iowa Road Conditions | Highw...", "ArcGIS Web Application", and "ArcGIS Web Application". The bottom status bar shows "Map data © OpenStreetMap contributors, CC-BY-SA | IEM: Iowa State University | Esri, HERE". The Windows taskbar at the bottom indicates the time is 11:06.

# FHWA Initiatives

A “sneak peak” at what is going on!

# Integrating Mobile Observations (IMO)

- **Weather and road condition data collection** from fleet vehicles for a more comprehensive view of network conditions
- Advanced, vehicle-based technologies are deployed to **collect, transmit, and use** weather, road condition, and related vehicle data

**Intended Outcome** – Utilizing enhanced data for more informed system management (maintenance, traffic, asset, performance)

# Why implement IMO?

Improve efficiency, enhance effectiveness, increase accountability

- Fill gaps in road weather observations
- Spur development of new applications
- Dramatically enhance existing systems
  - Aid in overall salt reduction strategies
  - Optimize the use of maintenance resources
  - Generate actionable, automated alerts and messages to TOC/TMCs, maintenance personnel, work zone teams
  - Provide traveling public with more timely and valuable information

# IMO Pilots

- Three states explored the feasibility of using vehicle-based data to improve transportation safety & mobility

## Minnesota DOT

~590 Vehicles

### Data

- Air Temperature
- Relative Humidity
- Surface Temperature
- Wiper Status
- Brake Status

Camera Images

**PACIFIC NORTHWEST SNOWFIGHTERS**

## IMO from a Local Perspective

- Cities, Counties and other agencies can:
- Equip fleets to collect critical data
- Work with State DOTs to share data
  - Access state-based Road Weather Information Systems to supplement data collected from fleets
- Work with private data vendors (e.g., INRIX, Waze) for complementary traffic data

**PACIFIC NORTHWEST SNOWFIGHTERS**

In partnership with  
**CLEAR ROADS**

## Some Things to Think About

- What information does your agency need?
- “Garbage in – garbage out” – be careful!
- Too much information – now what?
- Liability issues

# Budget Tools

- Asset management
- Dealing with facts (data driven)
- Public Safety “deterrent”
- Customer service surveys (LOS tool)
- Federal mandates/initiatives

**PACIFIC NORTHWEST SNOWFIGHTERS**

In partnership with

**CLEAR ROADS**

## Future Trends

- Autonomous vehicles
- More technology – less discretion
- Route optimization
- “Measuring performance”
- Enhanced information to the public

**PACIFIC NORTHWEST SNOWFIGHTERS**

In partnership with

**CLEAR ROADS**

## Challenges

- Stay on top of the trends
- What information to share
- Adapting to changes
- Desire for “more” data

**PACIFIC NORTHWEST SNOWFIGHTERS**

## Our Future Path

- More information for the public (public facing website)
- Enhanced equipment automation
- Route optimization
- Networking for more uniformity
- Watching/reacting to trends

**PACIFIC NORTHWEST SNOWFIGHTERS**
